### Overview

Nexxt Solutions introduces **Trinity3G** – the new generation of portable SIM based Wi-Fi hotspots. This device comes with a built in 3G modem and a 2000mAh battery making a true mobile solution. The rechargeable battery works up to 6 hours or 72 hours in standby mode. The 3G hotspot operates under the HSPA+ protocol, supporting download speeds of 21.6Mbps with up to 8 simultaneous users.

This modem doubles as a portable USB storage device with the inclusion of a micro-SD slot with a maximum capacity of 32GB. A graphic OLED display quickly identifies the operating status of the modem. This is a user-friendly Mi-Fi solution that is widely compatible with many carriers for ultimate performance on the go.

### Features

- HSPA+ 21.6Mbps 3G mobile hotspot
- Built-in modem - instant access to 3G/4G\* networks (based on HSPA+ speeds)
- SIM card slot with real-time status
- Micro-SD card slot for easy file sharing, transfer or storage
- 2000mAh battery works up to 6 hours
- Up to 8 simultaneous users
- OLED display shows real-time operation status of the device
- Flexible power supply options (PC, AC adapter, power bank)
- Compact and portable design
- For smart phones, tablets, computers, and much more.
- Two-year warranty

## Technical specifications

MPN	ARNPR3G5U1
<b>Hardware features</b>	
Standards	2.4GHz: IEEE802.11n, IEEE802.11g, IEEE802.11b IEEE 802.3, IEEE 802.3u, IEEE 802.3x
Protocols	HSPA+/HSPA/UMTS/EDGE/GRPS/GSM WCDMA: 850/1900/2100MHz GSM: 850/900/1800/1900MHz
Ports and interface	Micro-SD slot (up to 32GB) Standard SIM card slot Micro-USB, 5V/1A for charger
Antennas	Two internal 3dBi
Button	Power, WPS, Reset
Display	0.9-inch OLED, 128x64 pixels 3G/2G network status Connection status Battery status New SMS status Wi-Fi status
<b>Wireless features</b>	
Frequency band	2.4GHz
Security	WEP, WPA, WPA2, WPA-PSK, WPA2-PSK, WPS
Working mode	3G, Wireless Router Mode
Wireless function	Support Client Filter, DHCP client list ,DHCP reservation
<b>Software features</b>	
Internet connection type	3G, PPPoE, DHCP, Static IP, AP
DHCP	DHCP Server, DHCP Client, DHCP reservation
Security	Access Control based on MAC address Allow/Disallow specified PCs on LAN to access Internet Internal firewall to block potential attacks from hackers Provides logs to record device's usage status
Other advanced functions	SMS, SSID, PIN/PUK code support, SSID/Channel, Configurable
<b>Environment</b>	
Operating temperature	32°F-104°F
Storage temperature	-4°F-140°F
Relative humidity	Operating humidity: 10%-90% non-condensing Storage humidity: 5%-90% non-condensing
<b>Physical appearance</b>	
Housing	PC and ABS plastic
Color	Black
Battery	2000mAh
Product dimensions	3.9x2x0.6in
<b>Additional information</b>	
Power	5V/1A
Warranty	Two years
Certificates	FCC
